

**SOME NEAR
MISSES
DEVASTATE
A NATION**

**SOME NEAR
MISSES ARE
USEFUL***

***BUT ONLY IF THEY'RE REPORTED**

A **near miss** is an event that does not cause harm, but has the potential to. According to the HSE, in 2015/16 there were 23 near misses recorded for every injury. In other words, 23 opportunities to prevent each injury before it occurred.

"Employee wellbeing is my top priority. Tell us when things aren't right so we can fix them for you."

Stephen Phipson CBE, CEO, Make UK
